Accessible Language Learning For the **Wellness** Sector

The Assistant

*Access and Inclusion
Promoting Language Learning for All*

ALL4WELL Assistant

- The Assistant is a mini authoring system that
 1. allows to modify the existing course
 2. helps to create new (language) learning modules
- The Assistant comes with
 1. instructions (in English)
 2. a full set of ready-made activities

Modifying a Course

- The Assistant can be used
 - To integrate a new learner language
 - To change the language level or difficulty level
 - To change the content of the target language
 - To change the target language

Creating a Course

- Creating a course is done in 8 steps
 1. Planning or scripting the course
 2. Creating and/or collecting text and sound files
 3. Assembling of individual units or lessons (Assistant)
 4. Integrating the content (Assistant)
 5. Test-Run of the units
 6. Bundling the units to a course (Assistant)
 7. Test-Run of the course
 8. Improving and modifying the course (Assistant)

Assembling of a Unit

- An ALL4WELL unit
 - Is made of ready-made activity building blocks
 - That are arranged in a linear page-to-page order
 - And are filled with content (text and/or sound)
